AAa/e

## Is this the Golden Age of Development?

*Thursday, June 16, 2016 - 11:30am-1:30pm*

Mary Ann King of Moran & Company opined, “All of us living or working in this City in this decade are going to remember this as a Golden Age in terms of development.” The AAa/e is asking - Is this true? Southern California is seeing some of the most exciting developments of all types – a growth we have not seen in nearly 20 years. Will this trend continue? What factors will contribute to this growth or decline? How will proposed anti-development legislation affect real estate development throughout the area? What about Orange County?

The AAa/e is interested in providing answers to these questions, while affording an opportunity for our members to meet firsthand key people who are involved in public and private development. Come and meet key developers in an intimate forum that may hold the answers.
